## Things to Remember

- Maximum Trade Per Hour is 6 & Maximum Trade Per Day is 20, do not exceed these limits.
- Do not Trade when Green Candle is in 0 (Last 100-digit stats)
- Do Not Panic If You Loose. When you're panic, you're going to make a lot of mistakes. Stay calm and wait 15 minutes before taking another position.
- Do not Use this strategy back-to-back to avoid from getting traced. Mix this strategy with your other strategies, then trade. Best Practice is to take maximum 3 trade at a time. Then, better to move another strategy, and come again to this strategy after using another 3-4 strategies.
